

I am concerned about the proposal of radio stations having to record an entire broadcast day. I am the general manager of a small college radio station and, as it is, it is all I can do to keep up with the amount of work that teaching 60+ students and the technical and FCC maintenance that running a station requires. I'm sure that many other college stations are in the same boat. We simply do not have the technology, manpower, or storage to keep up with daily recordings of every entire broadcast day. I make sure that my station follows all of the FCC rules and regulations and I feel that the passing of this proposal would be a slap in the face of all of us who work so hard to ensure good and family-oriented programming.

Please don't make us pay for the likes of Howard Stern, Infinity Radio, etc. People like myself work hard, follow the rules, and have done nothing wrong to warrant an added stressor and added work duties. Thank you for your time.
